

# EMANUELE PANESI

## FULL-STACK DEVELOPER

I'm a Full-Stack Developer skilled in developing and testing multiple web-based applications, incorporating a range of technologies. I'm dedicated to programming after leading two companies for the last 10 years that have given me valuable experience leading teams, managing responsibilities and making decisions.

### WORK EXPERIENCE

Full-Stack  
Developer &  
Founder

PIZZADVISOR - BARCELONA 06/2022 - PRESENT

Full - stack responsive App to create and share the best pizzerias in Barcelona. Frontend developed with React and Typescript, managing states with Redux and styles with Styled-Components. The backend uses MongoDB's data model with Mongoose. I deployed a REST API with its corresponding endpoints, using NodeJs y ExpressJs. Tested with Jest and Cypress. Constantly checked with SonarCloud, always following good practices (S.O.L.I.D principles) with a clean and scalable code
